Pupilage

Description

We offer a unique mix of contentious and non-contentious practice areas which provides a challenging but rewarding place to undertake pupilage. Our pupilage program is structured to give our pupils the best possible insight into the Firm's areas of specialization.

Our pupilage supervisors are drawn from across the range of practice areas and the opportunity to sit with our supervisors during the course of the nine months pupilage, gives our pupils the opportunity to not only follow the different personalities but experience different areas of the law and develop management skills.

We also ensure that our pupils are given the opportunity not just to experience the professional life of an advocate and solicitor but to appear in court, once short called, for case managements, minor hearings in the belief that this shall also contribute to their invaluable experience and preparation for the future.

In return, we expect our pupils to be ambitious, driven and self-motivated from the very start of their pupilage. Our pupils need to be able to think outside the box to come up with solutions in legal complexities.
